### How Accessible Has eLearning Been for You?

Author: Jennison Asuncion and Catherine Fichten of the Adaptech Research Network.

Have you had the experience of using eLearning (e.g., PowerPoint in the classroom, downloadable PDF files, CD-ROMs, WebCT) in at least one of your courses? If you answered yes, then the Adaptech Research Network wants to hear from you.

We are currently in the middle of a three-year study that is examining the accessibility of the various forms of eLearning used by professors in their teaching. If you are a college or university student with a disability willing and interested in completing our online survey, simply e-mail [catherine.fichten@mcgill.ca](mailto:catherine.fichten@mcgill.ca) for the URL and more details.

As a token of our appreciation we will enter your name to win a \$50.00 gift certificate for Chapters/Indigo Books & Music. The draw will take place toward the end of the year once this phase of the research is complete.
